SUBJECT	Airfield East of Kirovabad		NO. OF PAGES	1

25X1C PLACE ACQUIRED

Return to CIA Library   NO. OF ENCLS. (LISTED BELOW)

DATE OF INFO.

SUPPLEMENT TO REPORT NO.   25X1X

1. There was an airfield about 6 miles east of KIROVABAD, Azerbaidzhan SSR (46°22'E/40°41' N), on both sides of the road to YEVLAKH (47°9'E/40°37' N). It had no concrete runway.

2. The landing field was south of the road. About 120 aircraft, including 60 twin-engine bombers and the remainder single-engine fighters, were parked in the section of the airfield north of the road. Both types have been known to the PWs since the war.

3. A hill with at least four underground cement bunkers was about 650 feet south of the airfield. Tractors and trailers hauled bombs, 3 to 5 feet long, from the bunkers to the airfield.

25X1A   Comment:

a. This is assumed to be the previously reported airfield of KIROVABAD. Only fighters and trainers had been ☐ there.   25X1C

b. Although the number of aircraft ☐ at the relatively   25X1C small and little improved airfield seems to be overrated, it is possible that the airfield was occupied by a fighter and a bomber unit or by a training unit.
